

# Basics in Applied Agronomy

## Certified Crop Advisor Preparatory Short Course

### Fall 2015

***Basics in Applied Agronomy*** provide participants with a comprehensive background in soil and water management, nutrient management, pest management, and crop management. It is designed around the four basic agronomic categories defined by the Certified Crop Adviser Program (CCA), making it a good review course for those participants preparing for the CCA exams. The course also provides CCAs and Certified Professional Agronomists (CPAg) a review of basic agronomy

***CEUs Offered:*** Certified Crop Advisers or Certified Professional Agronomists successfully completing the course (attending lectures and passing quizzes) will receive 22 CEUs (6.0 SW, 4.0 NM,

*"Learning is a treasure that will follow its owner everywhere."*
